In case you didn't see the announcement last night of the sale which started to-day, we made a remarkable purchase of

2,546 wool and fibre RUGS

and are selling them at prices lower than those of rugs not so good.

This is due to the fact that they were so superior to the usual grade of rugs of this type that they could not be sold at competing prices. We secured them at concessions because we purchased the whole quantity. These concessions enable us to sell them at less than the prices of rugs of inferior grades.

The rugs are exceptional in coloring and design, including copies of Persian and Chinese patterns, some with plain centres and attractive borders. They are seamless and reversible, the color effect being reversed on the left side. They are excellent rugs from the viewpoints of appearance and durability.
